

From January 28 to February 1, 2023, Data for Progress conducted a survey of 858 likely voters in Minnesota using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±3 percentage points.

N=858 unless otherwise specified. Some values may not add up to 100 due to rounding.

[4] Currently, gas utility companies in Minnesota charge all existing customers a small fee to subsidize the costs of extending the gas system to new customers. Some have suggested ending these subsidies, which would lower rates for current customers.

Which of the following is closest to your view, even if neither is exactly right?

Gas extension subsidies should be eliminated and new customers should cover the costs of connecting to the gas system .....	<b>45%</b>	37%	48%	50%
Gas extension subsidies should remain in place to reduce the costs for new customers connecting to the gas system .....	<b>38</b>	42	35	39
Don't know .....	<b>17</b>	20	18	11

[5] Pollution from industry adversely impacts air quality in communities. When permitting new industrial facilities, the Minnesota Pollution Control Agency currently considers the potential pollution from each proposed facility in isolation. Some Minnesota lawmakers have suggested that the agency should also consider the combined public health and environmental impacts of **all surrounding facilities** on the community.

Should the Minnesota state government consider the full context of a community's history facing air pollution from **all surrounding facilities** when issuing air quality permits for new projects?

Yes, they should .....	<b>62%</b>	88%	62%	36%
No, they should not .....	<b>21</b>	3	24	37
Don't know .....	<b>17</b>	9	14	28

[6] Minnesota legislators are advancing a bill to create a "Minnesota Green Bank". The Green Bank would invest in projects to modernize water infrastructure, build clean energy projects, and prepare communities for extreme weather events. The Green Bank would also invest in statewide clean jobs training.

Do you support or oppose establishing a Minnesota Green Bank?
